A REFLECTION IDENTITY / PROPOSED

A reflection only you *could make.*

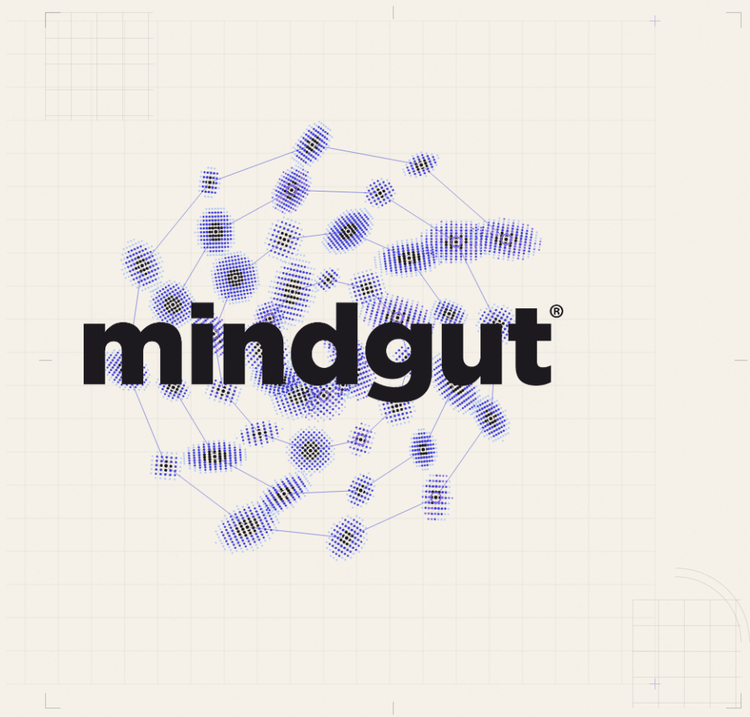
A conversation that continues.

SAMPLE / COPY AND TYPE PROPOSED

The earlier expressions, *together*.

One original wordmark. The existing studies remain visible so we can compare them before choosing a direction.

01 / REFLECTION



Dots, contours, path and glow. Growth and specimen variations remain part of the system.

02 / ABSTRACT LIGHT

An abstract gradient shaped by the reflection. Diffuse light supports the original wordmark.

03 / GLASS ORB

The original wordmark, centred over the glass orb. A retained study for brand moments.

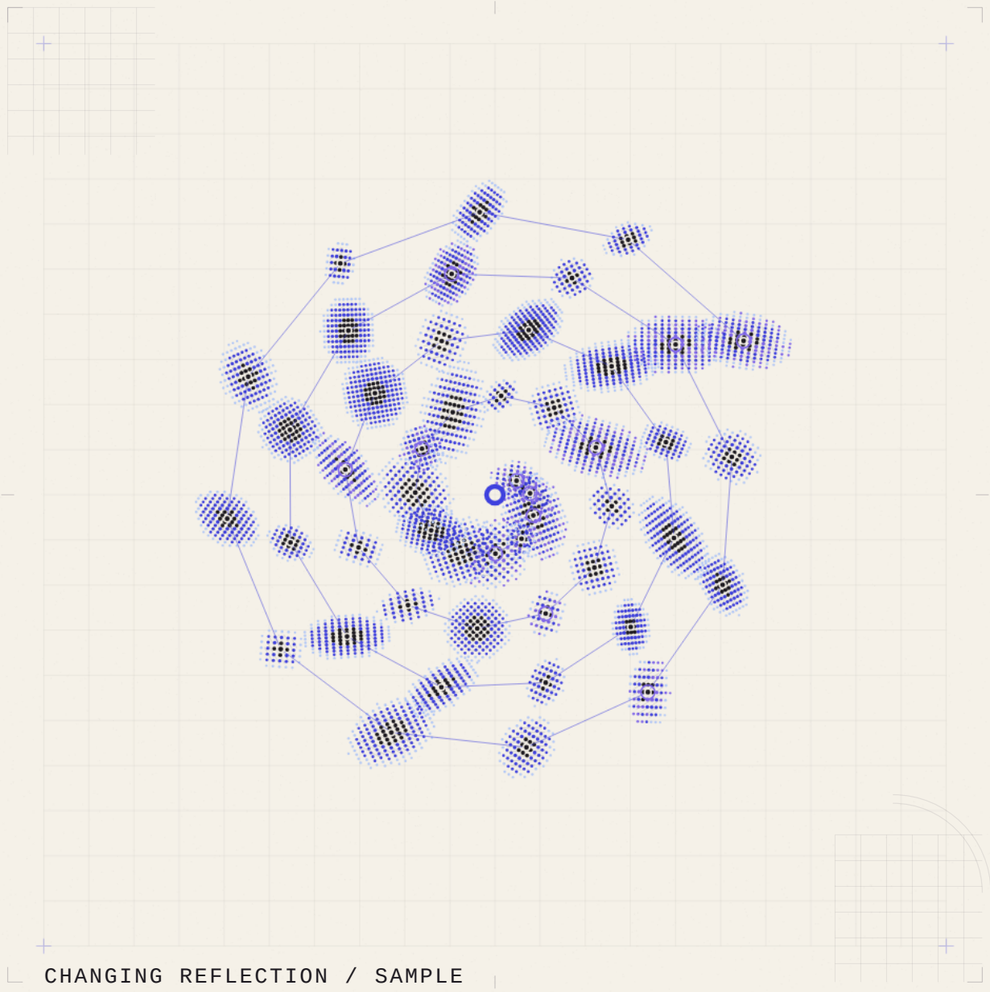
A conversation that *continues.*

Mindgut holds the measured record. Mir is the pattern that appears when a person, a model and that record work together.

mindgut®

FIXED IDENTITY

The supplied wordmark is solid and one colour. Its contours never become data.



CHANGING REFLECTION / SAMPLE

The original, *intact.*

Master PNG preserved. The black backing is converted to alpha; letterforms, spacing, single-storey g and ® remain unchanged.

VOID / WORDMARK

Clear space

At least the height of the tittle on all four sides. Minimum wordmark width: 72 px. Do not reduce it below this size.

MIST / WORDMARK

Everyday use

Void on Paper. Mist on Night. Cobalt on Paper. No outlines, stipple, gradients or alternative letter colours.

COBALT / WORDMARK

Brand exception

The source light-cut treatment and Mist wordmark over the glass orb are reserved for brand moments, never product UI.

Ink, light and *paper*.

The existing palette is retained. Paper remains the proposed warm presentation ground; Mist #F3F8FD remains the native light ground. The nucleus stays Cobalt.

Void	Paper	Cobalt	Lavender	Sky
#1C191F	#F5F1E8	#3E40DE	#B7A4F5	#B4C9F7
Ink / dark blocks	Warm ground / proposed	Brand / action	Pastel / glow	Halo / glow core

Cobalt #3E40DE

Reflection nucleus. Original wordmark unchanged.

Orb light stops

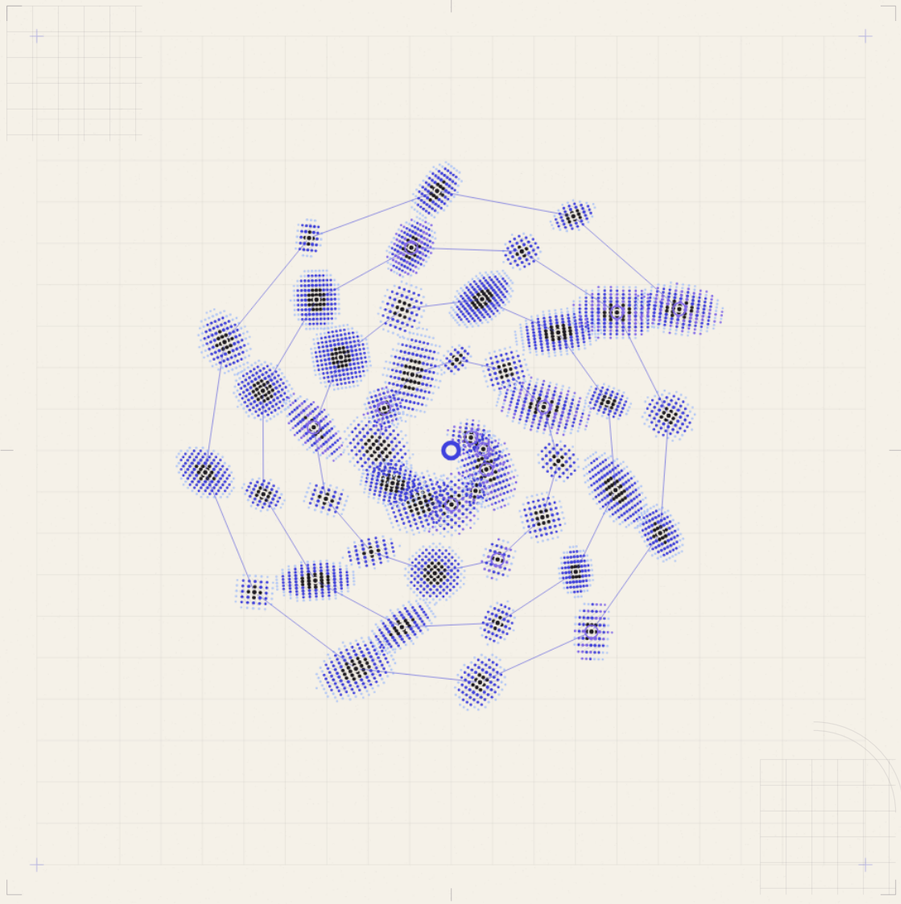
Rim #7B83F2 → core #CFDBF3. Light lives inside illustration, never in UI shadows.

Agreement / proposed

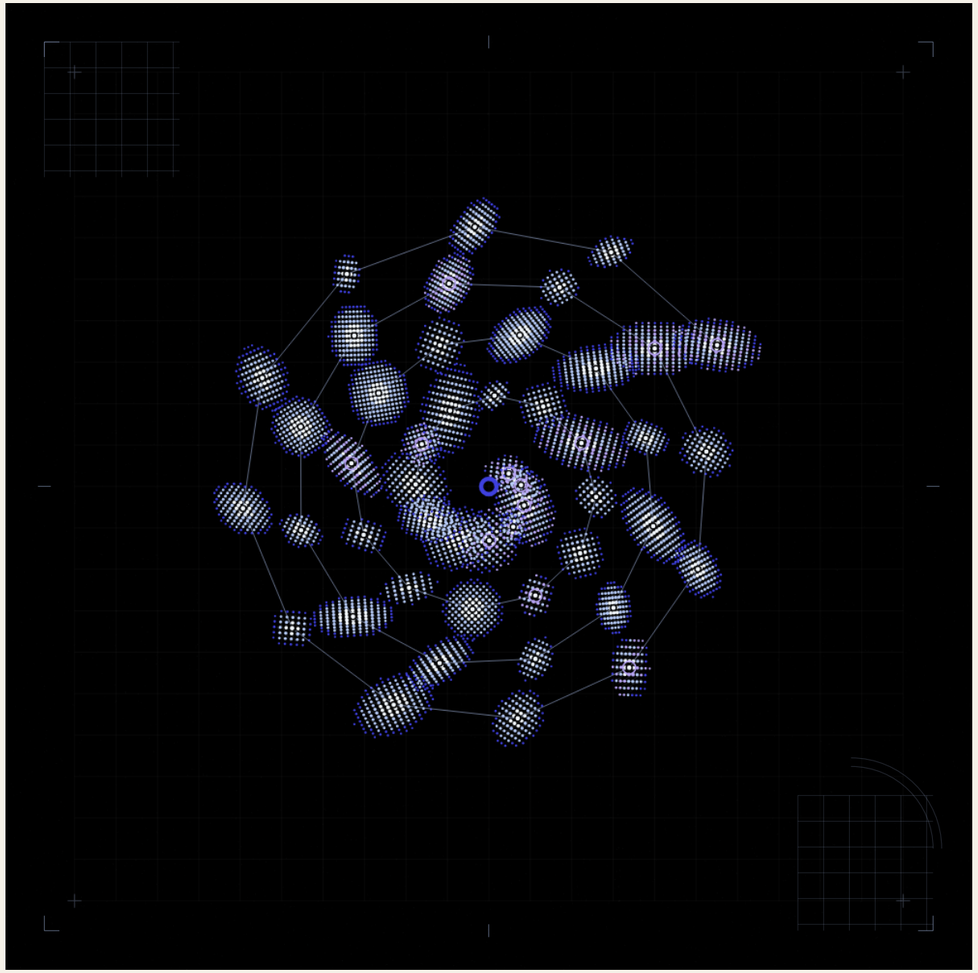
Paper: #7F66EA. Night: #B7A4F5. Lavender replaces the source plates’ teal.

The same record, in either *light*.

Paper uses Void cores, Cobalt bodies and Sky halos. Night uses Mist cores, Sky bodies and Cobalt halos. SAMPLE: 48 threads.



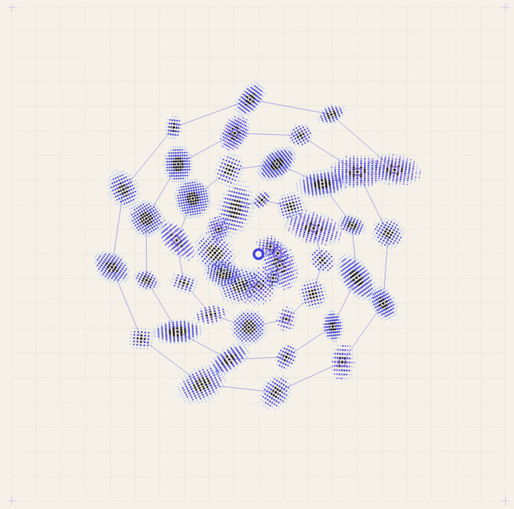
PAPER / PROPOSED



NIGHT / ALTERNATE

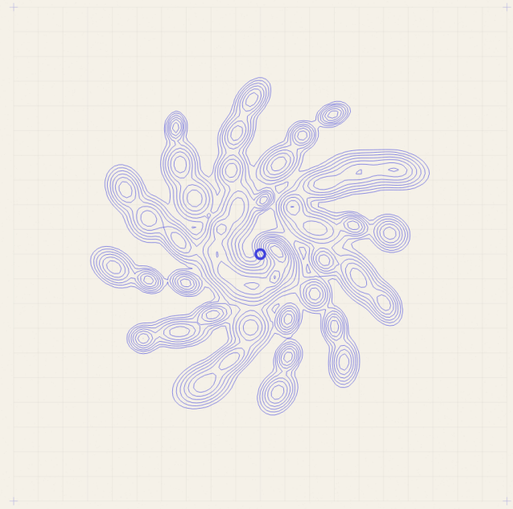
Four techniques. One *shape.*

Each technique uses the same positions, lobe field and missing spaces. Technique changes material, not the record.



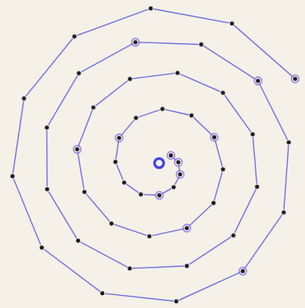
Dots

Printed screen. The default.



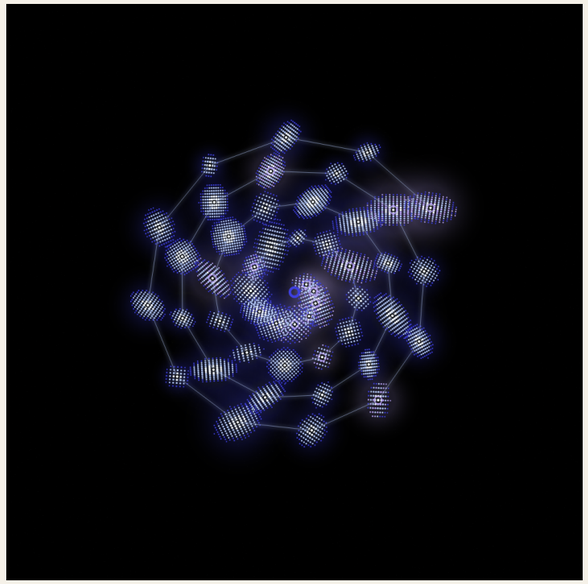
Contours

Landscape. Editorial and print.



Path

Only the journey. Small views.



Glow

The light inside. Night moments.

SEED 412 / 48 THREADS / SPREAD 1.1 / SAMPLE

It grows, it doesn’t *score.*

The view uses a fixed scale. A thread’s position depends on its stable index, seed and spread—not the total number of threads.

2 THREADS	6 THREADS	12 THREADS	20 THREADS	32 THREADS	48 THREADS
DAY 1	WEEK 1	WEEK 3	MONTH 2	MONTH 4	MONTH 6
a seed, at the dot	*the first turn*	*something held*	*it opens*	*a full bloom*	*only yours*

SAMPLE / Time labels are illustrative, never targets. No ranking, badges, streaks or comparisons of worth. A larger reflection records more conversations; it is not a better reflection.

No two reflections *alike.*

Six fictional records. Descriptors describe the composition, not a personality. Equal-size tiles avoid a hierarchy of worth.

SEP 2026

36 THREADS

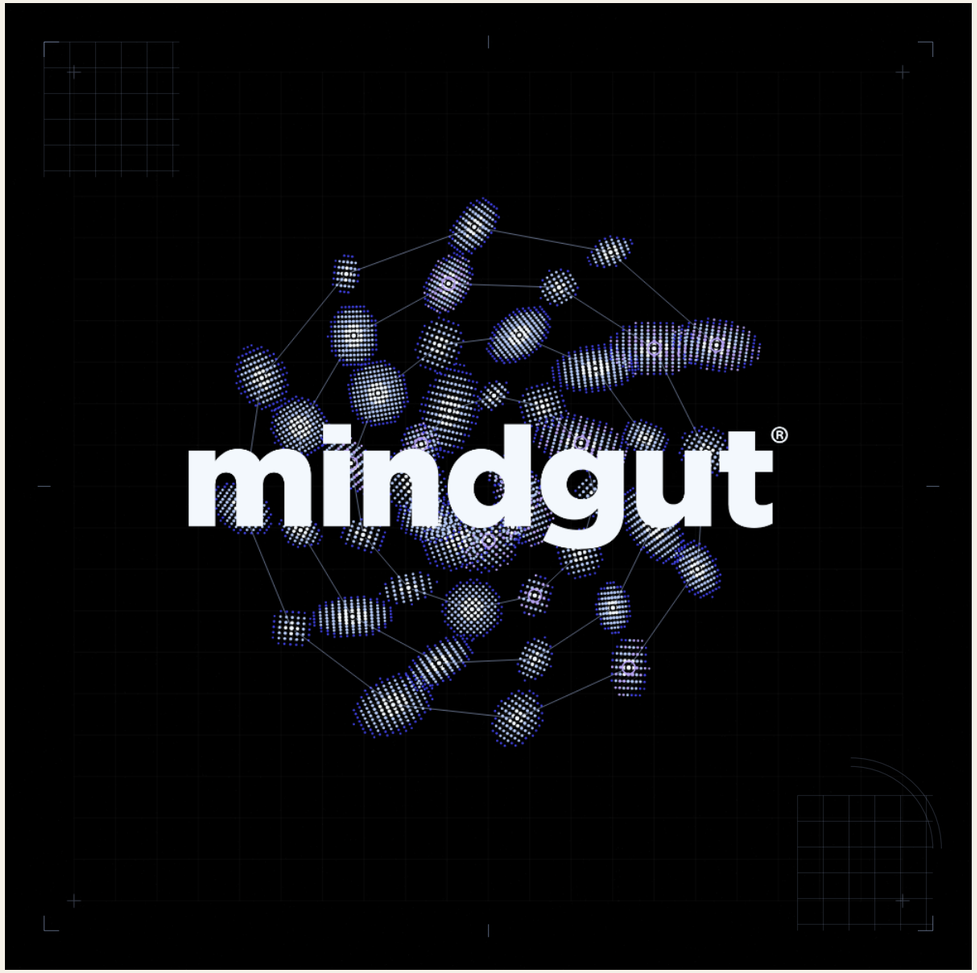
airy turns

thinks out loud

One wordmark. Two *grounds*.

The wordmark is the original artwork: no outline, knockout or shadow. Its original tittle stays clear, without an orange ring.

PAPER / SAMPLE



NIGHT / SAMPLE

A clearer way to *compare.*

From the supplied HTML: section markers, aligned comparisons and compact information cards. These resources organize the review; they do not change the identity.

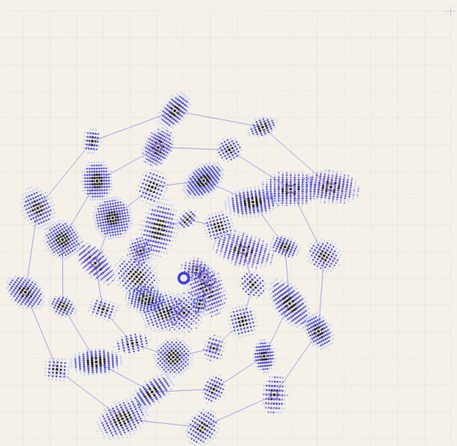
00 / SOURCE

01 / VARIATIONS

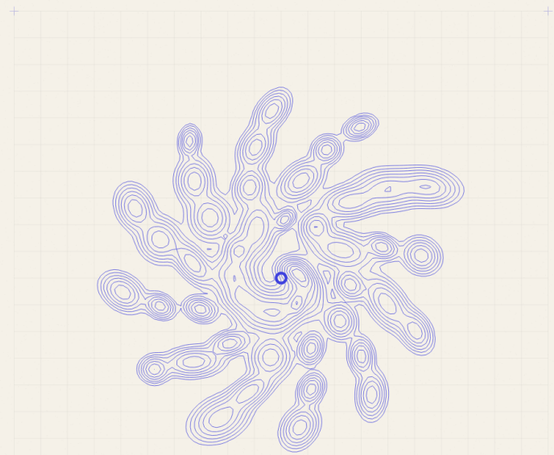
02 / APPLICATIONS

03 / COMPARE

SAME ARTWORK / EQUAL SCALE



01 / DOTS



02 / CONTOURS

Keep constant

Original logo, colour roles and approved typography.

Compare one variable

Technique, density or scale. Use the same frame.

Make status clear

Core study, alternative or early reference. Keep source and proposal distinct.

Plain language.
Room for *meaning*.

English. Sentence case. Present tense. “You” for the reader. Mir is “it”. No emotional or consciousness claims.

Yours to keep.

It never shows what was said.

No two reflections alike.

Proposed copy

“Say it once. It stays.” is a campaign exploration. Retention and deletion must be defined before this becomes a public promise.

The reflection omits transcript text. It can still reveal activity patterns; sharing stays optional.

The light studies *return.*

The glass orb and light-cut wordmark are retained as earlier brand explorations. They remain distinct from the everyday one-colour logo.

01 / GLASS ORB / CENTRED LOCKUP

02 / SUBTLE LIGHT-CUT / PROPOSED

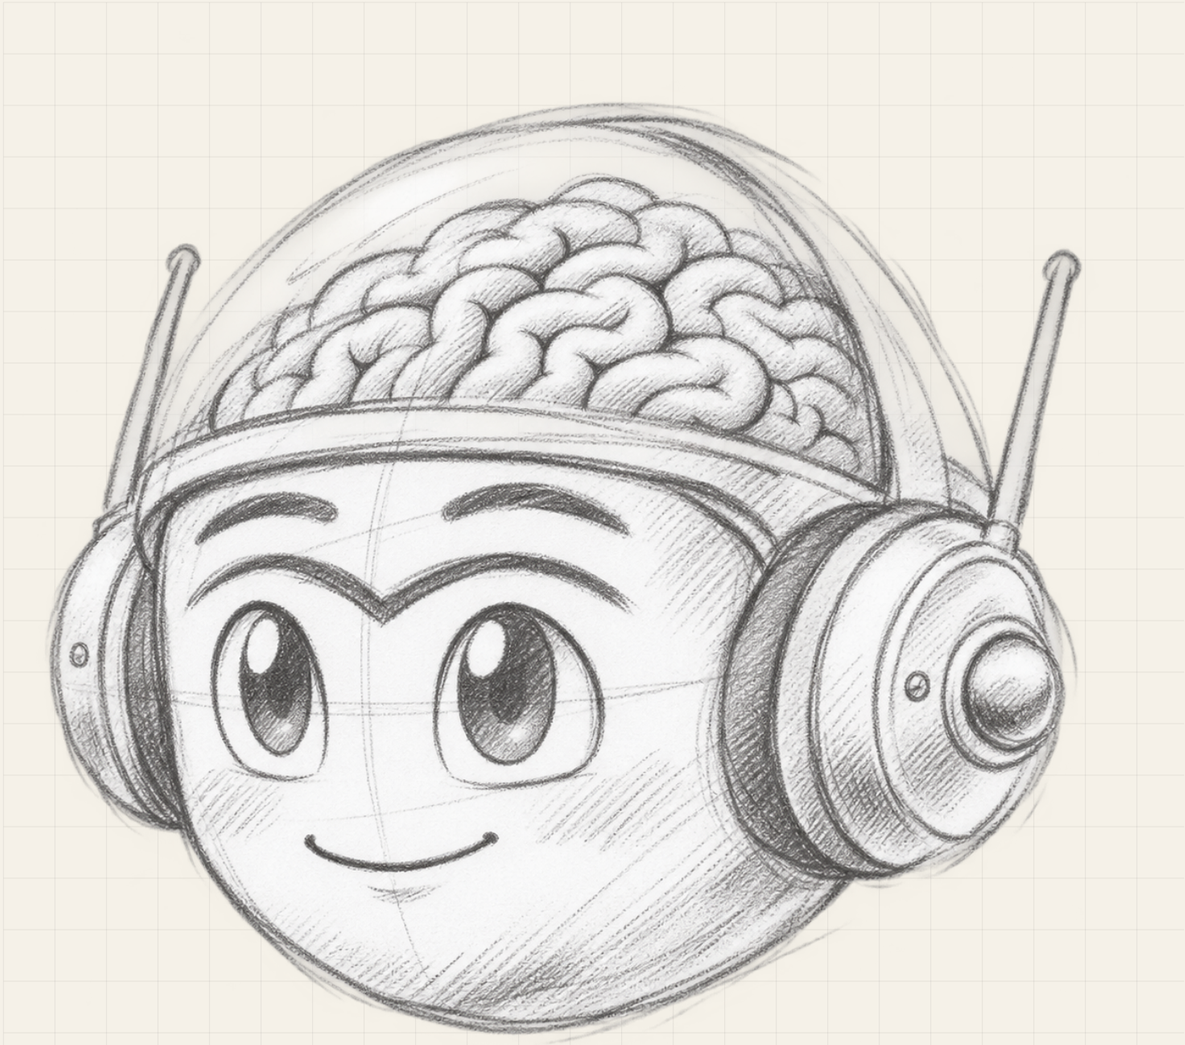
01 / THE FIRST SKETCH

An illustrated *layer.*

Illustrations add a drawn, editorial layer to Mindgut. Line, texture and colour can vary while the original wordmark stays constant.

CHARCOAL / GREY STUDY

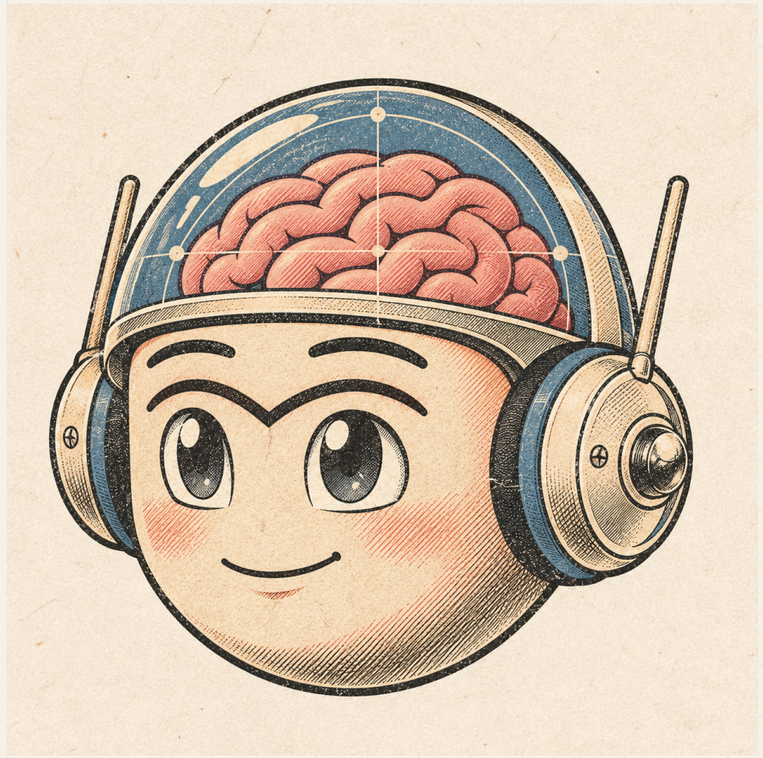
An open exploration for campaigns and brand storytelling. This first sketch studies the character before colour and finish.



SKETCH / PROPOSED ILLUSTRATION

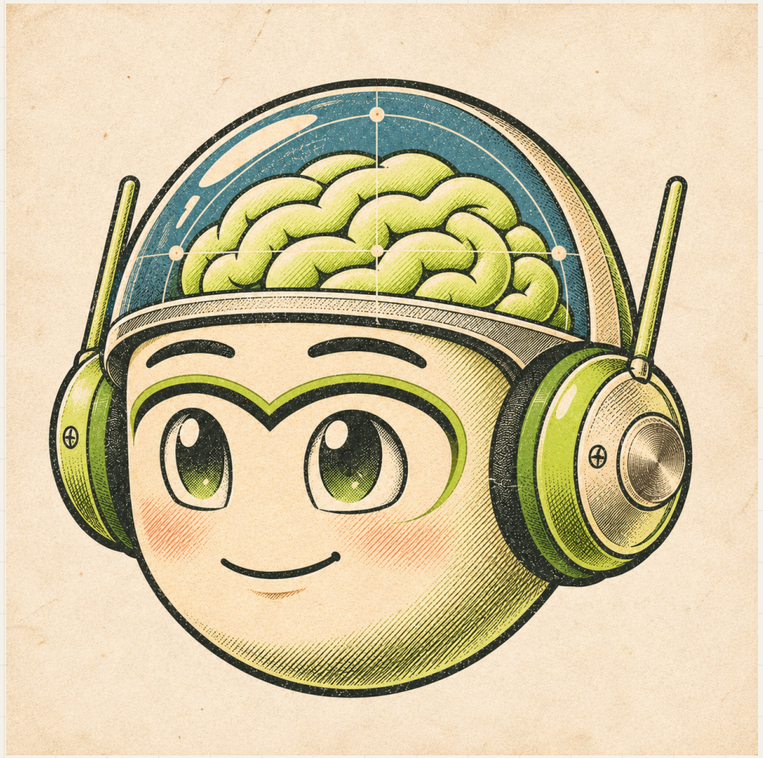
One drawing. Three *variations.*

Three supplied studies explore changes in colour, texture and finish. An illustration direction, open for development.



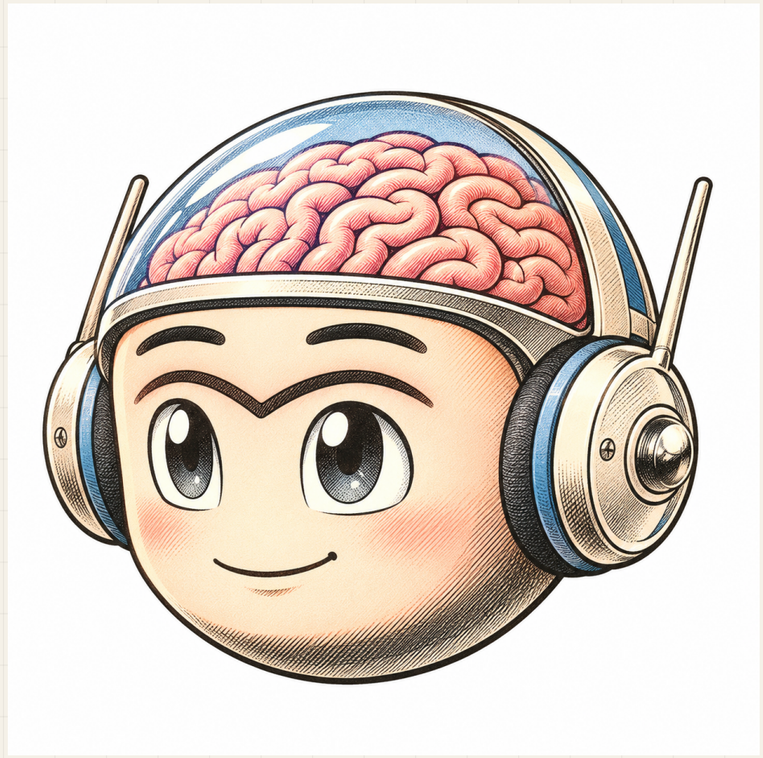
01 / WARM PRINT

Warm colour. Engraved texture.



02 / GREEN PRINT

A brighter colour variation.



03 / CLEAN LINE

A lighter ground. A clearer edge.

Supplied illustration studies / Colours are shown as reference variations, not additions to the core brand palette.

A more graphic *expression.*

Simpler contours, brighter colour and more graphic faces. Four supplied studies extend the illustration exploration.

01 / BOLD DETAIL

Defined line. Fine texture.

02 / MULTIPLE EYES

A playful shift in character.

03 / SOFT SHAPES

Open contour. Rounded forms.

04 / SOLID CONTOUR

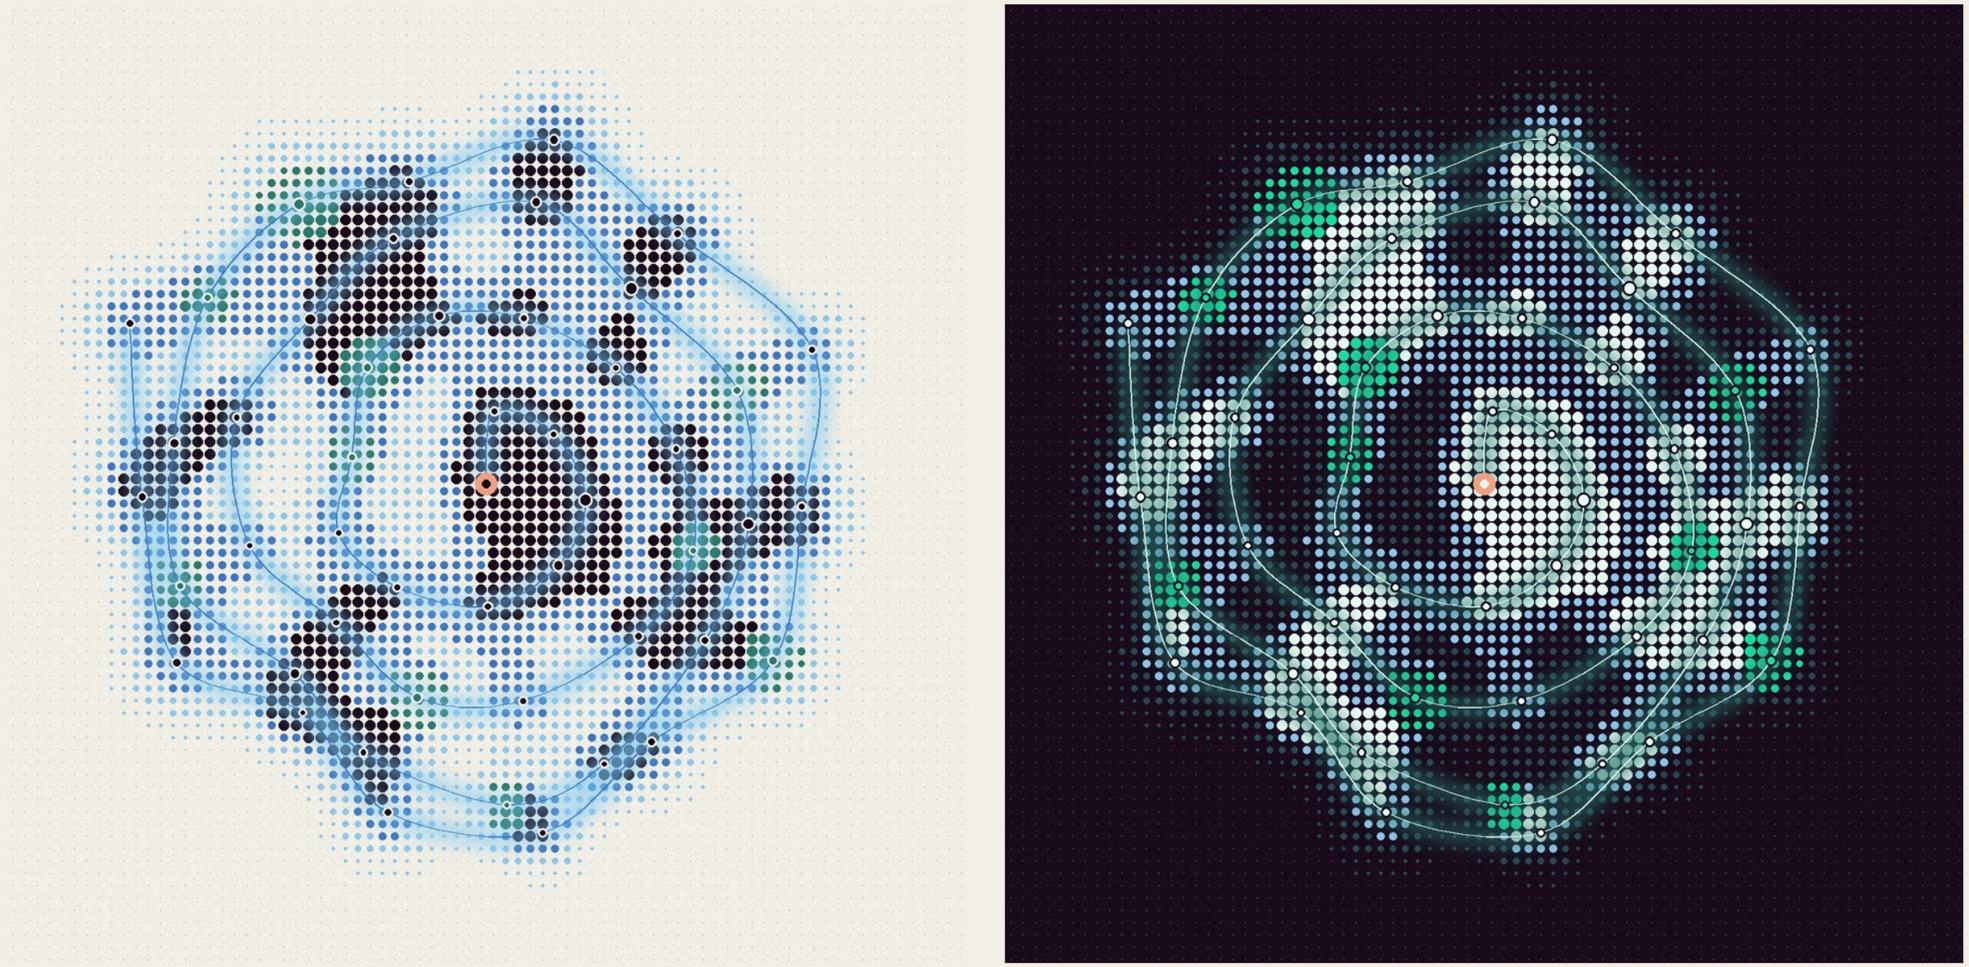
A stronger outline. Fewer details.

Supplied illustration studies / Colours are shown as reference variations, not additions to the core brand palette.

The first circular *study*.

Early searches into density, a circular path and the contrast between light and dark. Supplied reference R-01, shown in its original colours.

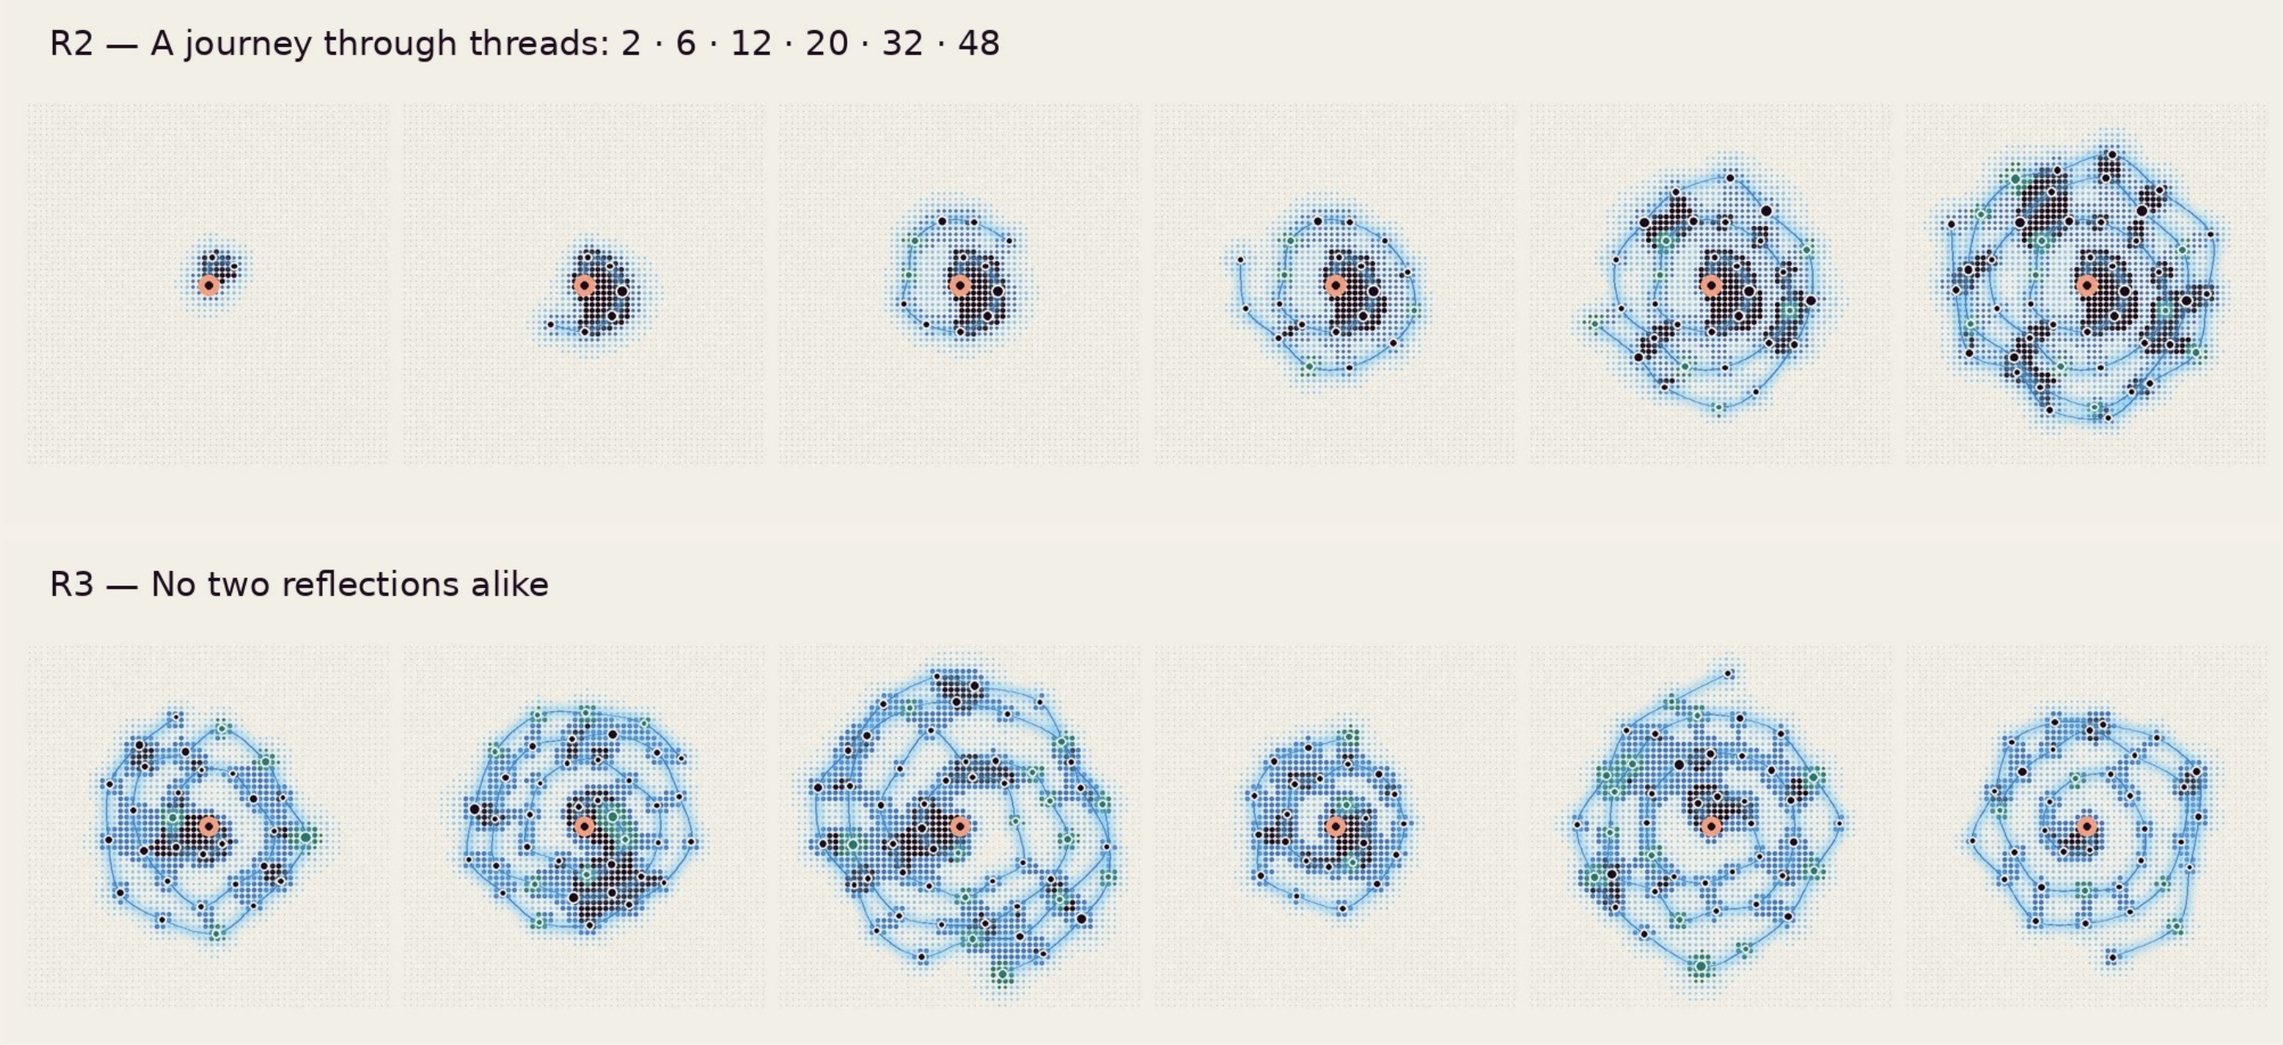
R1 — A reflection only you could make (circular)



Reference archive / These initial colours are not the current palette. The current nucleus is Cobalt #3E40DE.

Growth and *variation.*

Early searches into continuity and difference. The supplied R-02 and R-03 boards explore how one construction can grow and take distinct forms.

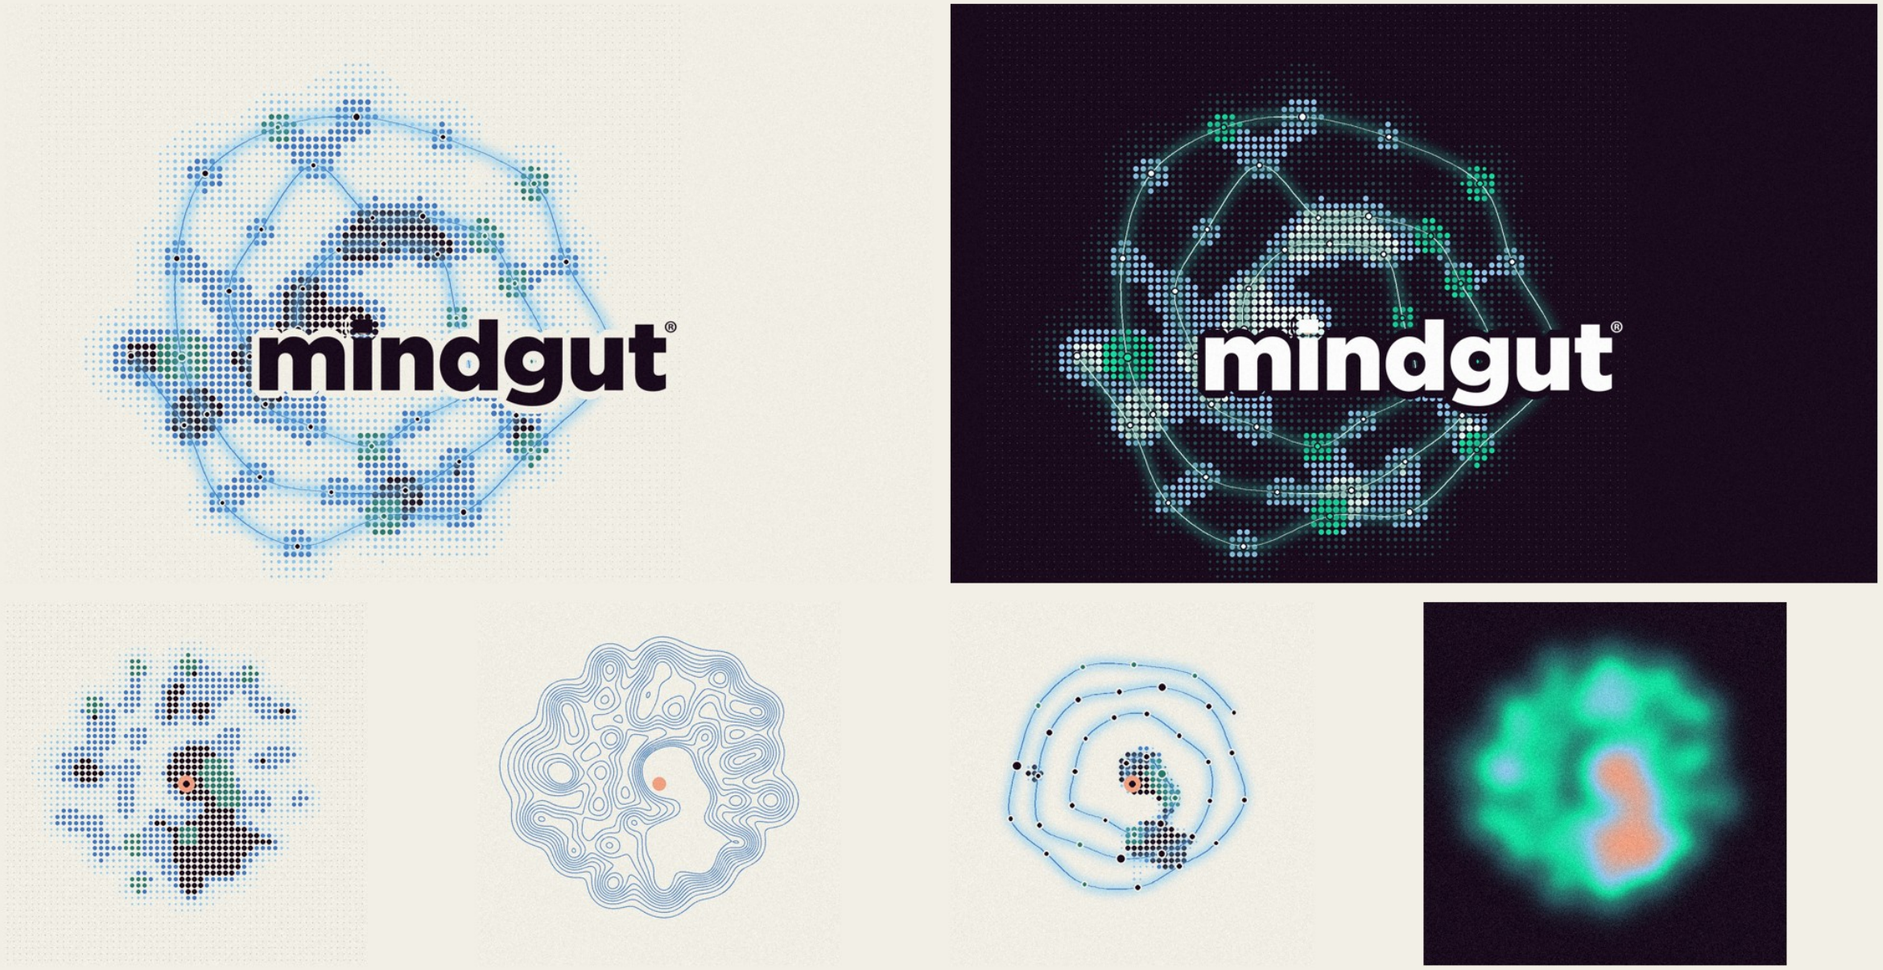


Reference archive / Original source colours retained. These are early studies, not current guidelines.

The first lockup *studies.*

An early search for a relationship between the wordmark and the reflection. Supplied R-04 board, preserved as a source reference.

R4 — Lockup · dots / contours / path / glow



Reference archive / The current lockups use the original wordmark without an outline or coloured ring. Standalone nuclei are Cobalt.
